## Peeking Into...Technology

We have been busy with many exciting things in Technology Class this year! We started out the year in Grades 1-6 by talking about Pope Francis and what he has said about using technology for good. We start each class by reading his tweet of the day. Pre-K and Kindergarten have been working on using the mouse and playing letter games on websites such as [abcya.com](http://abcya.com) and [starfall.com](http://starfall.com).

Grades 1-5 have been working on typing and reviewing basic computer skills. We've also been learning coding to prepare for participating in the National Hour of Code in December, when schools across the country will all be coding at the same time! Sixth Grade has been working hard on their NH Wildlife PowerPoint presentations. It has been exciting to see their research take shape in a visual presentation.
