## Peeking Into...Technology

We have been very busy in Technology! After Christmas break grades 2-6 started talking about what it means to be a good digital citizen, building on our theme of using technology wisely. Grades 2-6 are now working with Microsoft Office: Word, PowerPoint, and Excel. Pre-K and Grade 1 have been practicing computer skills while playing educational games. All three classes played number bingo on the computer around the same time they played bingo for Catholic Schools Week!

*“It is not technology which determines whether or not communication is authentic, but rather the human heart and our capacity to use wisely the means at our disposal.” --Pope Francis*
