

ST. ANTHONY SCHOOL NEWS

Nov. 1, 2017

JCLUB CATHOLIC BOOK FAIR

In our efforts to provide our students with the best Catholic Education experience, we are offering students and parents an opportunity to get their own quality books that highlight our Catholic beliefs and values. Fair begins Nov. 6th. More information on the enclosed flyer!

Important Notices

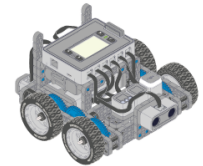

We need to complete our report to the State of NH Department of Public Health and you are required to provide the school with **current immunizations** for your child(ren). Requests are going home today to the parents of any student with missing immunization records. Your prompt attention is most appreciated. Call Mrs. Dionne in the school office if you have any questions.

Also, I regret to inform you that Mrs. Marien will not be returning to St. Anthony School. We will begin a search for a replacement technology teacher this week. In the interim, the classroom teachers have full use of the technology lab and are encouraged to utilize it to support their learning activities as much as possible.

Robotics Club!

Mr. Dan Larochelle (father of Kyle, Gr. 5) and I are working on bringing the Vex IQ Robotics back to St. Anthony! This program is an ideal platform for exploring important STEM fundamentals and computer science concepts...and its fun! But we need parent volunteers to make it happen. (Grades 3-6, depending on numbers/volunteers) If you are interested in helping, please contact Mrs. Beebe.

REMINDERS

CHRISTMAS RAFFLE tickets will go home next week. New this year --- our grand prize is a choice of \$750 tuition rebate (St. Anthony School only) or \$500 cash!!

PENNY SALE ~ We really need your help to make the penny sale successful. Please send in you donation as soon as possible. Thanks!

CHRISTMAS GIVING TREE Some of our families received a letter regarding the St. Anthony Parish Giving Tree last week. If you did, please note that your response is due tomorrow, 11/2. Thank you!

St. Anne Society Christmas Fair is this weekend. Please support our parish. More details available in the enclosed flyer.

Peeking into...Grade 4

Our fourth grade is off to a wonderful start by using organization skills to prepare for each day. As students move ahead each year, expectations are also more demanding. These students are striving for their personal best! We have been busy learning about how living things are classified in Science. The students created awesome vertebrate creatures with play dough as they explored the unique characteristics of vertebrates and invertebrates. In Grammar, students have tackled complete and simple subjects and predicates, as well as compound subjects and predicates. In the afternoon we gather around an imaginary campfire as I read Abenaki Folktales. This is fitting for this time of year as the Abenaki believed this is when the Earth slept. This week as we gather around the campfire it will be to listen to the Folktales the students have written. Folktales that explain things in nature just as our Native Americans had done.

Important DATES:	
 All Souls Day	Prayer Service Tomorrow 8:00 AM
